

A photograph of a swimming pool area. The background is a large, textured concrete wall with vertical lines. In the foreground, there is a swimming pool with a tiled deck. The pool's edge is finished with light-colored tiles. The water in the pool is clear and light blue. The overall scene is brightly lit, suggesting an outdoor setting.

Modena mosaikk: Vanguard Pool - Formentor Iridis

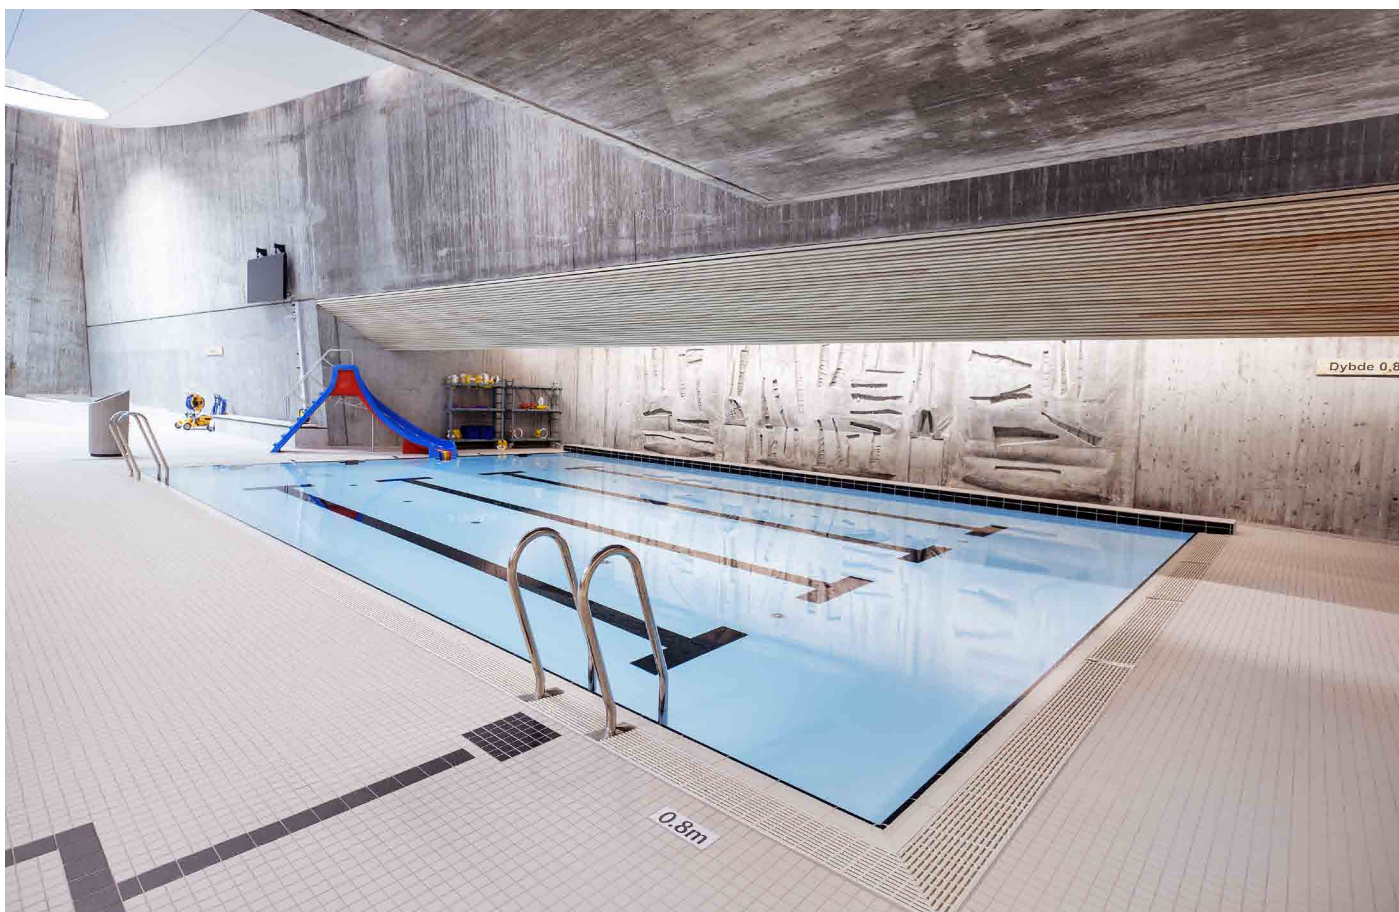

Stavanger Svømmehall, 2018

Det karakteristiske betongbygget, Stavanger Svømmehall ble totalrehabilitert i 2019, hvor Modena leverte 2000m² hvite 5x5cm mosaikkfliser og festemidler. Byantikvaren i Stavanger og arkitektene i Stavanger Eiendom satte krav til bruk av mosaikkfliser for å bevare det opprinnelige uttrykket.

Bygget ble opprinnelig tegnet av arkitektene Gert Walter Thuesen og Jacob Grytten i en stil kalt brutalismen, en retning innen modernismen, og ble først tatt i bruk i 1971.
